

About

Motivated developer and designer. Electronic music producer.

Experience

Front-end Developer, Psych Press, Melbourne (2018 - Present)

Front-end and UI/UX lead

Lead UI/UX and front-end developer for all projects, with a focus on WCAG-compliant accessibility. Mentored junior and intern developers to deliver high-quality, user-centered design and code.

SSQ Platform

React.js, Javascript, vite, TanStack Query (React Query), React Testing Library, jest, Figma, data visualisation, prototyping.

Designed from paper and pencil product and developed a workforce questionnaire and role mapping web app tool with interactive data map. Worked closely with our client to digitise his life's work.

Coach Platform and ACE

React.js, Javascript, webpack, React Testing Library, jest, data visualisation, Figma, printing CSS, Adobe Acrobat, Adobe Illustrator, prototyping, reporting.

Coach Platform: The main reporting channel and participant management and leadership portal. Designed and implemented reports and features closely with our clients and stakeholders. ACE: Custom data visualisation and reporting for franchisee satisfaction, transformed a static PPT report into an interactive platform for local and international clients.

Private component library package

React.js, Typescript, vite, Storybook, npm, Azure DevOps.

Built and deployed a TypeScript component library via Azure DevOps, using Storybook for interactive documentation. Streamlined UI consistency across apps through reusable, accessible, and securely hosted components.

Education

Masters of Information Technology (2016-2018)

RMIT University, Melbourne.

Bachelor of Arts (Philosophy and Sociology majors) (2009 - 2011)

La Trobe University, Melbourne.
